

K Books Ltd

American Car Manuals & Tuning Guides Catalogue Items 1 – 128. April 2022

K Books are pleased to present our 'CARAM' catalogue featuring workshop manuals, service manuals and wiring diagrams relating to American cars & trucks, principally from the 1970s through to the late 1990s.

This catalogue does not include individual photographs of each item but if you would like to see an image of a particular item, please ask and we can email one to you.

Please note that even when an item is described as in very good or good condition, some pages or the cover maybe marked, slightly damaged or creased but we regard this as 'normal' considering the environment they have been in! Where a book is in poor or fair condition we will state this.

Postage is charged in addition to the prices listed below – and as you will be aware some manuals are very large and heavy, therefore shipping especially overseas can be costly. Please ask for a postage estimate when enquiring about purchasing an item and we can quote you the total cost.

We also have two other catalogues relating to American cars – one that features sales brochures and the other featuring general books on American cars and motoring (rather than manuals). If you would like to receive either of these please ask and we can email you a copy.

- 1A. **BUICK: *Chassis Service Manual, All Series, 1972.*** Soft cover, very good condition. **£20**
- 1B. **BUICK: *Chassis Service Manual, All Series Except Skylark, 1980.*** Soft cover, good condition, 1979. **£12**
