2. **ALCEDO Y HERRERA, Dionisio.** *Compendio historico de la provincia, partidos, ciudades, astilleros, rios, y puerto de Guayaquil en las costas de la Mar del Sur* Madrid: Manuel Fernandez, 1741. 4°, recent antique burgundy morocco, covers and spine richly gilt, inner dentelles gilt, all edges gilt, in morocco slipcase with moiré sides. Charming woodcut tailpieces. Minor soiling on title-page; minor foxing; faint dampstains at edges of some leaves. In fine condition. (16 ll.), 99 pp., engraved folding map. \$9,000.00

FIRST EDITION of this important early description of the province of Guayas, on the coast of Ecuador, whose capital city, Santiago de Guayaquil, was established in 1537 by Francisco de Orellana. The *Compendio*, the earliest topographical and historical study of this area, gives accounts of the region's products, commerce, flora and fauna, architecture, and shipbuilding.

In the introduction the author discusses the importance of Guayaquil as one of the major ports of the Spanish colonies in America, mentioning the attacks of English pirates such as Drake and Morgan and the measures that had been taken to defend the ports. A later chapter (pp. 82-90) is devoted to accounts of the English and Dutch pirates who had attacked the city. Chapters 10 and 11 refer to the Mangache and Colorado Indians.

The folding map, signed by Paul Minguet as engraver, shows the old and new sections of the city of Guayaquil, locating some 70 points of interest.

Alcedo y Herrera (1690-1777), Spanish historian and geographer, traveled to America in 1706 with the Viceroy of Peru; after occupying various significant administrative posts in Mexico and Peru, he later served as Presidente de la Audiencia y Capitán General of

FIRST and ONLY EDITION. Sixteen volumes—A COMPLETE RUN—of this quarterly journal with research in the arts and sciences, reviews, correspondence and articles on the latest inventions, discoveries and theories. Included are pieces on medicine, anatomy, pharmacy, botany, chemistry, meteorology, mineralogy, education, etc., with some original poems, many reviews, and annotated lists of recent books and journals in

Item 2

related fields. The plates depict grape cultivation, a hydraulic lift, a map of Portugal, a machine for extracting iron ore, an apparatus for carbonating beverages and a cultivator.

In medicine the topics range from epidemic fevers and poison to hernias, cautery, smallpox and angina.

The scope of the *Annaes* is worldwide, ranging from the Arctic to the Caspian Sea, India and Amherst, Massachusetts. Several sections give information on Brazil, e.g., meteorological observations from S. Luiz do Maranhão (XVI, ii, 55-79), customs regulations for Portugal and Brazil (III, ii, 3-14) and new calculations of the latitude and longitude of various points on the coast (XIV, ii, 4-7). There are also sections on Africa, including a review of Bowdich's *Mission from Cape Coast to Ashantee*, London 1819 (V, i, 157-65) and an account of Capt. J.K. Tuckey's 1816 expedition to the Congo (IV, i, 38-52).

Ramos describes this work as "a publicação periodica mais completa e mais seria que então existe em lingua portuguesa. De caracter enciclopedico, pretendendo cobrir as actividades do espirito humano, desde a poesia a agricultura, e do romance a industria, esta publicação atinge um publico de qualidade, junto do qual exerce uma influencia que mereceria ser estudada" (pp. 37-8).

The *Annaes* was founded by José Diogo Mascarenhas Neto, Francisco Solano Constançio and Candido José Xavier, all of whom were editors and principal contributors. They were later joined by Luis da Silva Mousinho d'Albuquerque.

In 1827 four issues of a successor to the *Annaes* were published: *Novos annaes das sciencias e das artes*.

Novos annaes das sciencias e das artes; dedicados aos que fallam a lingua portugueza em ambos os hemispherios. Numbers 1-4 (all published). 4 issues bound in 1 vol. Paris: C. Farcy, 1827. 8°, original printed wrappers. Occasional light stains. In very good to fine condition. (3 ll.), vi, 196 pp.; (3 ll.), 206 pp.; (3 ll.), 175 pp.; (1 blank l., 3 ll.), 175, (1) pp. 4 issues.

FIRST and ONLY EDITION—Extremely rare successor to the *Annaes das sciencias, das artes, e das letras*, Paris 1818-1822—A COMPLETE RUN. Only these four issues (January, March, May and July 1827) were published. Like the *Annaes*, this periodical ranges world-wide, from Russia to the Pyrenees, from mines in Colombia to strange meteorological phenomena off the coast of Africa. Among the wealth of information on contemporary medicine and the physical sciences are sections on psychology, homicidal mania, forced injections, cancer of the lower jaw, rhinoplasty, syphilis and epilepsy. Other subjects include the penal and civil codes of Louisiana, railroads and canals, the status of the new nations in North and South America, including Brazil, and the tunnel being constructed under the River Thames in London. There is also some poetry as well as correspondence from readers.

\$200.00

FIRST and ONLY EDITION. *Urtiga branca*, the common name in Portuguese for the flowering plant scientifically known as *lamium album*, commonly known in English as white nettle or white dead-nettle, is a plant native to Eurasia introduced to America during the process of European colonization. It has been used to produce pigments, and the distillation of its flowers has produced a liqueur. The present work promotes its use to produce a fiber for the textile industry. The Associação Promotora da Industria Fabril was founded in Lisbon, 1860, by José Ennes, José Elias dos Santos Miranda, António Lopes Ferreira dos Anjos, Joaquim Moreira Marques, João Gomes Roldan and Luiz Beraud.

Impressa no Tomo VI Parte 1 das Memórias da Academia das Sciencias de Lisboa em 1819.* 4 works in 1 volume. Lisbon: Na Typografia da [Real] Academia das Sciencias, 1821. Large 4º (25.4 x 19.4 cm.), contemporary marbled wrappers (spine rather defective). Woodcut arms of the Real Academia das Sciencias de Lisboa on title page. Light foxing. Overall in very good condition. 15 pp. *4 works in 1 volume.* \$1,600.00

Second separate edition of *A primavera*, and first separate editions of the three following works, published as reprints from the *Memórias* of the Real Academia das Sciencias de Lisboa.

Villela Barbosa (1769-1846), a native of Rio de Janeiro, studied at Coimbra and became professor of mathematics at the Academia Real de Marinha. When he wrote the three *Discursos* in this volume, in 1821, he was Vice-Secretario of the Academia Real das Sciencias. He served in the Córtes of 1821 but returned to Brazil when the Parliament concluded in 1823, and became one of the three negotiators of the 1825 treaty recognizing Brazilian independence. He later served as Senador, Conselheiro de Estado, Coronel de Engenheiros, and several times as Ministro de Estado. Created 1.º Visconde de Paranaguá by the Brazilian Emperor D. Pedro I in 1825, and 1.º Marquês in 1826, Villela Barbosa is best known for his poetry, such as *Poemas*, Coimbra, 1794, and *Primavera*, Lisbon 1821, but also published several popular geometry textbooks.

* Borba de Moraes (1983) I, 75: citing an 1819 reprint from the *Memórias* of the Academia; and *Período colonial* p. 54, citing this edition, correcting Sacramento Blake's comments on the editions, and quoting Innocência that only 50 offprints (*sic*; i.e. reprints) were produced. Sacramento Blake III, 136. Innocência III, 82: states that while Villela Barbosa is not a poet of the first rank, "cabe-lhe de justiça um logar distincto entre os poetas do Brasil; e na opinião de judiciosos criticos mostra em suas composições mais imaginação, mais força, e estylo mais poetico que o seu compatriota e contemporaneo José Bonifacio d' Andrade." FIRST and ONLY EDITION of this work on the cultivation of poppies and the extraction of opium.

Avellar Brotero (1744-1828) fled to France in 1788 to escape persecution by the Inquisition, and there published his *Compendio de botanica* in order to earn his living. It immediately established his reputation as a botanist, and upon his return to Portugal in 1790 he was given the chair of botany and agriculture at Coimbra. His two best known works, *Flora lusitanica*, 1804, and *Phytographia Lusitaniae selectior*, 1816-1827, were the first lengthy descriptions of native Portuguese plants. As director of the botanical gardens at Coimbra and Ajuda, he was responsible for their reorganization and enlargement.

Provenance: The entire volume was owned by Francisco António Rodrigues de Gusmão (1815-1888), physician and author, perhaps the most significant collaborator of Innocência Francisco da Silva in the course of the writing of the still indispensable

Dicionário bibliographico portuguez. He presumably commissioned the binding. It was purchased in the auction of books owned by Rodrigues de Gusmão and Mário Tomás da Costa Roque (1932-1983), distinguished physician, the author of books on the history of medicine and on printing history, an important auction catalogue with 1,320 lots, sold 1 and 2 April, 1998. See Silva's and Pedro de Azevedo, *Biblioteca de Francisco António Rodrigues de Gusmão e Mário Tomás da Costa Roque*, Lisbon: Silva's, 1998. The introduction to the catalogue contains an extract from the *Dicionário bibliographico* about Rodrigues de Gusmão, and an essay by Joaquim Veríssimo Serrão about Costa Roque. CALDAS, Jose Joaquim da Silva Pereira. *Indicações succintíssimas sobre a cholera-morbo.* [Colophon] Braga: Typ. Lusitana, 1853. Small 8°, 16 pp. Caption title. Cut rather close at outer and lower margins. In good condition.

First Separate Edition, amplified from a serialized version which had appeared in *Moderado*, numbers 25-28. A second edition appeared the following year, same printer, same place. The author distributed both pamphlet editions gratuitously in large numbers, which probably accounts for their subsequent rarity.

José Joaquim da Silva Pereira Caldas (Caldas de Vizela, 1818-Braga, 1903), journalist, essay writer, Arabist and amateur archeologist, studied mathematics, natural philosophy and medicine at Coimbra University. A prolific writer and liberal political activist, he taught mathematics and Arabic at the Liceu de Braga.

On the Island of Graciosa in the Azores

- 10. COSTA JUNIOR, Felix José da.** *Memoria estatística e histórica da Ilha Graciosa.* Angra do Heroísmo: Imprensa de Joaquim José Soares, 1845. 4°, blue-green wrappers. A few color pencil marks. Early ownership signature, Antonio Passos, across title page, on pp. 1, 86 and 148. Small white paper tag with serrated edges, presumed shelf mark with "65—J // 246" in later ink manuscript on lower inner corner of rear wrapper. "Ilha Graciosa" written in early manuscript on front wrapper. Some underlining and a few other reader's marks in red pencil. viii, 148 pp., (1 l. errata). \$450.00

FIRST EDITION of this sketch of the smallest island of the Azores, with sections on flora and fauna, civil government, economics, etc. A facsimile reprint was published in 2007. Costa (Angra, 1819-Angra do Heroísmo, 1877), was a politician, publicist, and historian of the Azores. He served as official to the Secretary of the Civil Government of his native city, where he exercised the profession of provisional counsel.

Provenance: We have not been able to discover anything about António R. Passos (fl. late nineteenth- and / or early twentieth-century), but over the years have seen many books bearing his signature. They are invariably interesting volumes, in above average condition, dealing mainly with agricultural products or minerals and their application in commerce. He must have been an astute and discerning book buyer and bibliophile.

First Edition of This Collection of Accounts of Florida, Ethiopia & Brazil

14. [DISCOVERIES]. *Collecção de opusculos reimpressos relativos á historia das navegações, viagens, e conquistas dos portugueses.* Tomo I, N. I. *Relação do descobrimento da Florida.* 4 numbers in 1 volume [all published]. Lisbon: Na Typografia da mesma Academia [Real das Sciencias], 1844. 4°, twentieth-century limp vellum (slight wear), flat spine richly gilt, crimson morocco lettering piece, gilt letter, covers with gilt border and gilt acorn in each corner, marbled endleaves, top edges gilt, leather ties, original peach printed wrappers of the fourth and final work bound in. Woodcut arms of the Real Academia das Sciencias on title page. Printed on “papel selado” of 10 and 40 reis. In very good condition. (3 ll.), xii, 139 pp., (4 ll.). 4 numbers in 1 volume [all published]. \$800.00

First edition of this collection. The original editions, printed in 1557, 1564, 1576, and 1565, respectively, are almost impossible to obtain.

The *Relação do descobrimento da Florida* is the second edition, first issue of the Gentleman of Elvas' *Relaçam verdadeira dos trabalhos que ho governador don Fernando de Souto e certos fidalgos portugueses passarom no descobrimento da provincia da Frolida* [sic], first published at Évora, 1557. The first edition is extremely rare: Alden & Landis list only four copies, at New York Public Library, John Carter Brown, the British Library, and Lisbon, Biblioteca da Ajuda. The *Relaçam* was soon translated into French (Paris, 1599), and from French into English by Hakluyt (first edition London, 1609; cf. Allison 21). A Dutch translation appeared at Leiden, 1706, but the Portuguese original did not appear again until this edition of 1844 by the Academia. A second issue, with a new title-page and an added list of works in the series, appeared in 1875.

The anonymous author accompanied Hernando de Soto during Soto's expedition in 1539-1543, which was the first exploration by Europeans of the southeast region of the United States. This eyewitness account, the primary source for the expedition, gives information about the journey and about Soto's relations with the Indians. He landed at Tampa Bay on the west coast of Florida and led his men north to Georgia and the Carolinas, then west to Tennessee, Alabama, Mississippi, Louisiana, and Arkansas (as far west as Fort Smith). Soto died in 1542 on the banks of the Mississippi at Guachoya.

Second edition of this important account of Ethiopia, originally published in 1564. A second issue appeared in 1875. This is an eyewitness account of the expedition of Cristóvão da Gama (ca. 1516-1542) to Ethiopia and Somalia. In 1541 Gama, son of Vasco da Gama, was dispatched to the area (via the Red Sea) by his brother Estêvão da Gama, viceroy of India. Cristóvão, with 400 musketeers and 130 slaves, was to assist the Emperor of Ethiopia (the legendary “Prester John”) in his war against the Somali Muslim army of Imam Ahmad ibn Ibrahim al-Ghazi (Ahmad Gurey). Gama defeated the Muslim army four times, but in 1542 was captured and executed. His men mounted another expedition

GANDAVO, Pero de Magalhães de. *Historia da Prouincia Santa Cruz, a que vulgarmente chamamos Brasil, feita por ... dirigida ao muito illustre senhor Dom Leonis Pereira, governador que foi de Malaca e das mais partes do Sul na India.* Lisbon: Na Typografia da Academia Real das Sciencias, 1858. Tomo I, N. III. 4°. xx, 68 pp. [lacking the plate].

Second or third edition of the first book in Portuguese entirely devoted to Brazil, originally printed in Lisbon, 1576; of that edition, only eleven copies are known to exist. In 1858 a Rio de Janeiro edition was also published, based on the printed first edition. This Lisbon edition was based on a manuscript (see p. vii) whose whereabouts are presently unknown. (See Stetson's edition of the *Histories* [1922] I, 49.)

Magalhães de Gandavo had travelled to Brazil in the 1560s, and thought his countrymen did not appreciate its potential. His work is "virtually a glorification of Brazil, it invited the reader to emigrate to the colony using, in the words of Sergio Buarque de Holanda, 'the language of an immigration agent'" (Borba de Moraes). He discusses geography, climate, topography, flora and fauna, minerals, and the Indians: their religion, social and political order, customs, etc. Magalhães de Gandavo was widely quoted by contemporaries such as Herrera, Gil González Dávila, Berredo and La Popellinière. The complete *Historia* was not widely known until Ternaux printed a French translation as the second volume in the *Voyages, relations et memoires*, 1837.

Lithograph plate with coat-of-arms and reproduction of stone plaque inscription for the bones of João Bermudez in the fourth work. vi pp., 1 plate, 127 pp. Original printed wrappers bound in.

Second edition of this important embassy to Ethiopia. The original Lisbon 1565 edition is very rare. João Bermudez, a Galician, was a military surgeon and a clergyman. In 1520 he led an expedition to Ethiopia, where he was captured. Only in 1536 did he return to Portugal, as an envoy of the Ethiopian emperor. Three years later, Bermudes left for Goa, and then Ethiopia, where he lived from 1541 to 1556. He was named Patriarch of Ethiopia (as of 1559) and was the first to use the title "Patriarch of the East Indies." Bermudes died in 1570 near Lisbon.

15. GAY, Claudio. *Historia física y política de Chile, según documentos adquiridos en esta Republica durante doce años de residencia en ella* 30 volumes. Paris: En la Imprenta de E. Thunot y C^a; text Paris: en casa del Autor and Chile: en el Museo de Historia Natural de Santiago, 1844-1871. Large 4° (37 x 29 cm.) and large 8°, text in contemporary quarter green morocco over marbled boards, atlas in contemporary half morocco; spines gilt, some rubbed, head and tail of a few volumes frayed. Hinge of volume II of atlas strengthened; spines of 2 atlas volumes and 4 volumes of text not quite uniform. Together 30 volumes (28 volumes text, in 8°, and 2 volumes atlas, in large 4°). Some foxing to text, very occasional marginal spotting to plates, tear in lower margin of one plate (affecting caption). A handsome set overall. Rubberstamps of former owner on all half-titles, and on titles of text volumes.

30 volumes. \$50,000.00

FIRST EDITION. Monumental account of the natural and civil history of Chile, with two volumes of beautiful illustrations, mostly hand-colored. Gay's work set the tone for all future historiographers of Chile with its meticulous examination of sources, including contemporary documents from the period immediately following the conquest.

The overall condition of this copy as well as the quality of the plates and coloring are far superior to most. In fact, many copies are without coloring altogether. In addition, this set has the complete text, which is unusual since the work was issued over a period of 27 years.

The two volumes of the atlas contain a total of 315 plates: one tinted lithographic frontispiece portrait; 20 engraved maps plus a folding cloth-backed map of Chile; two hand-colored plates of antiquities; 53 lithographic plates of views and costumes (12 are hand-finished colored, 41 are tinted); and 238 hand-colored engraved plates (103 botanical, 135 zoological).

The text is divided as follows: *Historia*, 8 volumes; *Documentos*, 2 volumes; *Agricultura*, 2 volumes; *Botánica*, 8 volumes; and *Zoología*, 8 volumes.

Gay, a French botanist, was commissioned in 1830 by the government of Chile to carry out a thorough scientific survey of the country and to produce a detailed description of its geography, geology and natural history. To accomplish this, Gay traveled from province to province for eleven years. In 1839 he was persuaded to add political history to the project, but only the section of the work covering the history of Chile up to the time of the discovery and conquest are his work. When he became too busy writing the volumes on natural history, the task of writing the political history was handed over to Francisco de Paula Noriega. The five volumes of history covering the discovery to 1810 are acknowledged to have flaws, but constitute the first reasonably complete picture of Chilean history written with modern historiographical methodology.

19. [HUNT, Rachel McMasters Miller]. Jane Quinby, compiler. *Catalogue of Botanical Books in the Collection of Rachel McMasters Miller Hunt*. 3 parts in 2 volumes. New York: Maurizio Martino, [1995?]. 8°, publisher's maroon cloth, black painted label on spine, gilt letter. As new. Frontis, lxxxiv, 517 pp.; frontis, ccxlv pp., (1 blank l.); 655 pp. ISBN: none.

3 parts in 2 volumes. \$250.00

One of 400 copies reprinted from the first edition, 1958. Describes 741 of the most important botanical books published before 1800. "Each entry consists of a detailed bibliographic description, collation, physical description, and annotation, with a list of references. Each volume contains its own detailed index; in addition v. 2, pt. 2, has an index to scientific names". Volume I covers 1150-1700, volume II 1701-1800. The preliminary material includes essays by various authors on early botany, medical aspects of early botanical books, the dawn of modern husbandry, the illustration of early botanical works, eighteenth-century botanical prints in color, eighteenth-century gardening books and eighteenth-century botanical gardens and botanical literature.

Rare Work on Botany and Gardening

23. [LOBO, D. Gaspar da Conceição, a.k.a. D. Gaspar da Encarnação Lobo]. *O jardineiro, anthologia, ou tratado das flores, aos amantes da jardinagem. O.C. D.G. da C.* Coimbra: Na Real Imprensa da Universidade, 1824. 8°, contemporary sheep (very slight wear at extremities), crimson leather label, gilt letter. Woodcut Portuguese royal arms on title-page, several woodcut head- and tailpieces, woodcut initials. In fine condition. (3 ll.), 110 pp. \$900.00

FIRST and ONLY EDITION. Rare. The work begins with an introduction to the study of plants, followed by a description of the Linnean system of classification. There are several additional introductory chapters, on earth, water, tanks, seeds, and with some general observations. Some of the more specific sections deal with onions and other roots, cultivation of melons, etc. There is a gardener's calendar, and an extensive dictionary of flowers (pp. 70-110).

The author, a canon of the Cistercian Monastery of Sancta Cruz, Coimbra, who joined the order in 1802, came from an illustrious family from the province of Minho. He became vice-chancellor of the Coimbra University, and *definidor* of his order. He died in 1840.

Medicinal Drugs and Their Proper Uses, 1799

24. MARABELLI, Francesco. Francisci Marabelli Ticinensis. *Apparatus medicaminum, nosocomiis, ac generatim curationi aegrotorum pauperum maxime accommodus* Venice: N.pr., 1799. Large 8°, contemporary half calf, smooth spine gilt (chafed; some other minor binding wear). Occasional light stains, a few small marginal tears. In very good condition. 336 pp. \$200.00

Third edition of this materia medica, which discusses medicinal drugs and their proper uses. The first edition was printed at Brescia in 1797-98, and a second edition was printed there the same year. Appendices contain recipes for various remedies and preparations, a listing of recommended reference works, and a glossary of herbs, spices and medicinal plants. The glossary refers to works in which a fuller description of each plant's properties may be found. Marabelli (1761-1846) was a pupil of Johan Peter Frank and apothecary at the hospital at Pavia.

Dampstained. Still, in good to very good condition. Stamp of the Duques de Lafões in blank portion of title-page. 24 pp. \$350.00

FIRST and ONLY EDITION of this discourse, originally read in the Royal Botanical Gardens of Madrid in front of the Infante D. Carlos María Isidro, calling for the gradual reforestation of Spain and an end to the widespread destruction of forests then taking place in Valencia and other provinces. Drawing on contemporary scientific theories, Nieva views forests as the key component of a proper ecological balance which, through a stable, temperate climate and abundance of natural resources, would ensure prosperity for Spain. The *Disertacion* is interesting for its ecological perspective, which supersedes the economic perspective found in earlier works on this topic.

Provenance: Collection of the Duques de Lafões. Parts of the library were dispersed in the late nineteenth century. There were additional dispersals after the political events of 1974.

Imposition error affecting sequence of quire a, so that the pagination at the end of the Prefacio and beginning of the text runs xvi, 3-4, xvii-[xviii], 7-8, 5-6. \$400.00

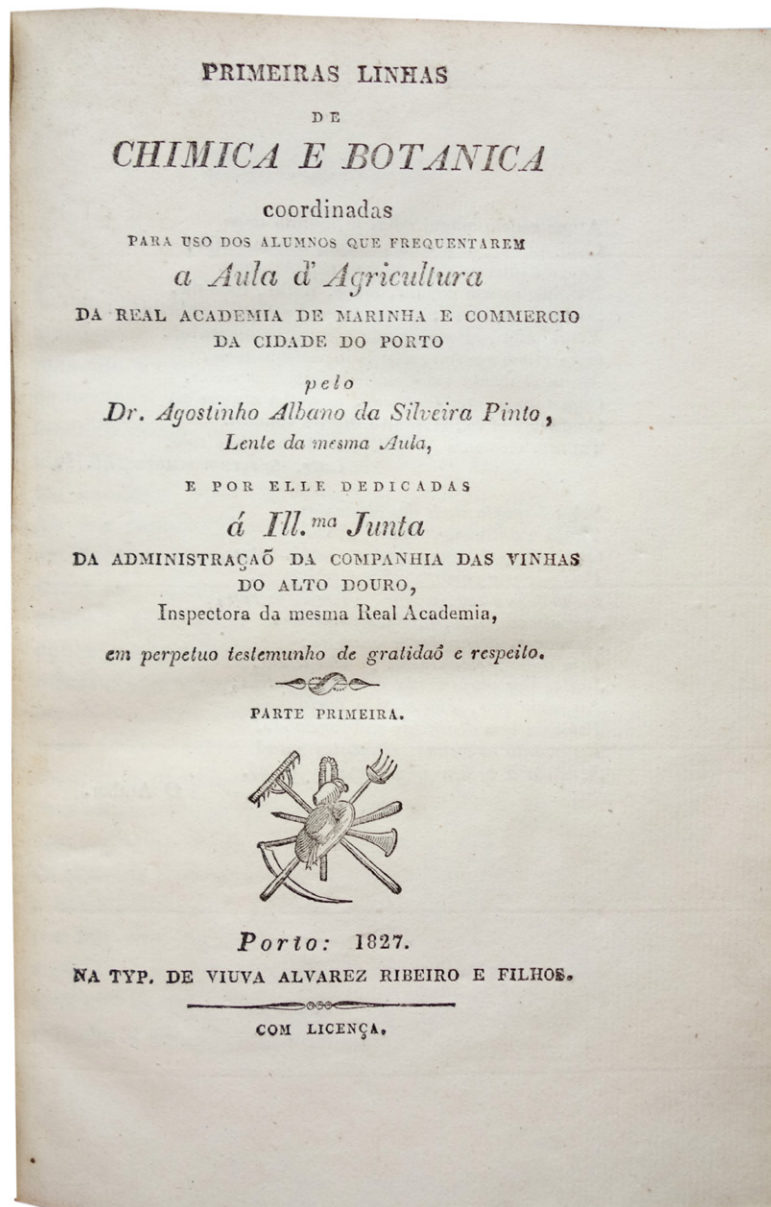

FIRST EDITION of this chemical study of the mineral waters around Coimbra by a student of Domingos Vandelli. Almeida Beja Noronha was a professor at the University who also did work on the analysis and mineral content of water. In this work he discusses the medicinal applications of mineral waters, the plants found in and near the waters, and case histories of patients treated for various illnesses using the waters.

How to Grow Cinnamon Trees

41. [VELOSO, José Mariano da Conceição, possible author]. *Memoria sobre a caneleira para acompanhar a remessa das plantas, que o Principe N. Senhor manda transportar para o Brazil.* Lisbon: Na Regia Officina Typografica, (1797 or 1798). 4°, bound in large-8°-size late nineteenth-century gilt- and black-stamped cloth with monogram “KG” in center. Woodcut Portuguese royal arms on title page. Uncut. Slight soiling on title page; small wormhole in lower margin of title page (repaired) and next three leaves, not affecting text. In very good condition. 11 pp. \$1,400.00

FIRST and ONLY EDITION of this work on the cinnamon tree, written to accompany a consignment of them that D. João was having shipped to Brazil. The author relates the history of growing cinnamon, pepper, ginger and other spices and drugs in Brazil, citing Duarte Ribeiro de Macedo and P. António Vieira, among others. He then expounds more practical matters: uses for different parts of the cinnamon plant, type of soil and terrain necessary to grow it, etc.

Rodrigues attributes the work to Fr. José Mariano da Conceição Veloso (1742?-1811), a native of Minas Geraes and a noted botanist who published many other brief works on agricultural subjects, as well as the lengthy *Florae fluminenses*, 1790, an exhaustive study of Brazilian vegetation. Borba de Moraes and Innocência, however, do not list this among Veloso's works.

The *Memoria* probably dates after 1792, when D. João effectively replaced his mother D. Maria I, but before 1799, when he was officially named Prince Regent. The imprint, “com licença da Sua Magestade,” suggests a date of 1797 or 1798: the *Imprensa Nacional Catalogue* cites this imprint as used only during those years (pp. 458-66).

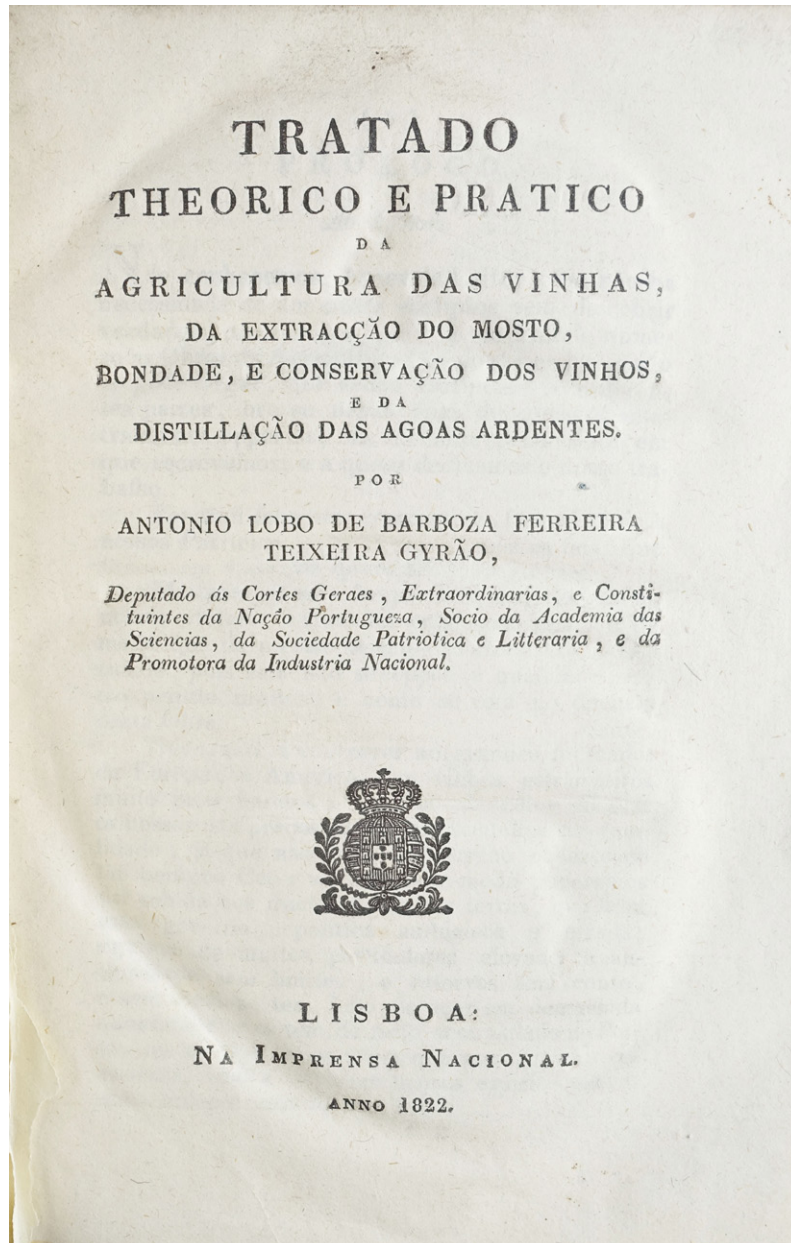

* Borba de Moraes (1983) II, 555. Not in Innocência; on Veloso, see V, 56 and XIII, 121. *JCB Portuguese and Brazilian Books*, 801/3 (we think dated erroneously). Rodrigues 2481. Not in *Imprensa Nacional*. Not in Bosch. NUC: DLC, InU, DCU-IA (giving a tentative date of 1780). Porbase locates one copy at Biblioteca Nacional de Portugal and two at Instituto de Investigação Científica e Tropical.

VILLA-MAIOR, Júlio Máximo de Oliveira Pimentel, 2.º Visconde de. *Tratado de vinificação para vinhos genuínos.* Lisbon: Typographia da Academia [Real das Ciências], 1868-1869. 8°, contemporary quarter dark blue morocco over decorated boards (slight wear), romantic spine, gilt with gilt letter, decorated endleaves, edges sprinkled. A few wood-engraved illustrations in text of equipment for making wine. Overall in very good to fine condition. [3]-160 pp., (1 l. indice, 1 blank l., 1 leaf half-title, 1 leaf divisional title-page for part II, dated 1869), [161]-291 pp., (1 leaf indice). The half-title appears to be misbound before the divisional title instead of at the beginning of the volume. \$500.00

FIRST EDITION of this important and scarce treatise, which begins, “São muitos os que fazem vinho, e poucos os que o fazem bem.” Includes chapters on all the basics of wine-making, including the harvest, preparation of the grapes, pressing the grapes,

putting in casks, clarification, sulfidation, adding *aguardente*, and bottling. The second part includes discussions of diseases of vines, mustiness, cloudiness, bitterness, and the effects of heat and cold.

The author (Torre de Moncorvo, 1809-Coimbra, 1884) was president of the Academia das Sciencias and president of the Câmara Municipal de Lisboa. He wrote numerous scientific works.

* Innocência XIII, 264; see also V; 161-2. Unzelman, *Wine & Gastronomy* p. 159 cites only the 1883 second edition, as does Simon, *Vinaria* 47. OCLC: 123110488 (California State University-Fresno, Stanford University, University of California-Davis, University of Wisconsin-Madison). Porbase lists four copies in the Biblioteca Nacional de Portugal and one at the Biblioteca Central da Marinha. Jisc locates only a copy of the second edition, at the City of London Guildhall Library.

43. VILLARINHO DE SÃO ROMÃO, António Lobo de Barbosa Ferreira Teixeira Girão [or Gyrão], later 1.º Visconde de (1785-1863).

Tratado theorico e pratico da agricultura das vinhas, da extracção do mosto, bondade, e conservação dos vinhos, e da distillação das agoas ardentes. Lisbon: Na Imprensa Nacional, 1822. 4º, contemporary half tan sheep over marbled boards (joints cracked; hinges weak; head of spine repaired, lacks front free endleaf), smooth spine with gilt fillets, crimson morocco lettering piece with short-title in gilt. Woodcut Portuguese royal arms on title page. Internally fine; overall in good to very good condition. 239, lviii pp., (3 ll., 1 l. errata), 1 large folding table, 3 large folding copper engraved plates. \$900.00

FIRST and ONLY EDITION of this comprehensive treatise on wine, wine making, and distillation, with additional sections on spirits and vinegar. The three copper engravings represent distilling and pressing equipment. The work concludes with a list of subscribers and a detailed table of contents. There are specific sections on methods of winemaking in Penafiel, Valença, Moncorvo, Bragança, Miranda, Coimbra, Alcobaça, Vila Viçosa, Elvas, and Ourem (pp. 148-54). There are also sections on how to imitate some of the best wines: Madeira (pp. 157-8); clarete (p. 159); muscatel (p. 160); and "geropiga, our vinho doce" (pp. 161-2). In the final section of lviii pp. are descriptions of wines from the Douro, Trás-os-Montes, Minho, suburbs of Porto, Penafiel, Basto, Ribeira do Lima, Ribeira do Minho, Comarca de Ourem in the Provincia da Estremadura, Vila de Borba, Algarve, as well as the Islands of S. Miguel, Fayal, and Pico in the Açores.

The author (Villarinho de São Romão, 1785-Lisbon, 1863), Peer of the Realm, and deputy to the 1821 Constitutional Córtes from Trás-os Montes, later representing Vila Real and Bragança (before being elevated to the peerage by D. Maria II in 1835 after the restoration of the Liberal regime), served as administrator of the Casa da Moeda, and prefect of Trás-os-Montes and Estremadura. Landowner and economist, he was a member of the Academy of Sciences and numerous other learned societies as well as organizations devoted to the public good. During the reign of Dom Miguel he was forced to keep a low profile due to his progressive ideas, already expressed in some published writings, and later in many other published works. He was one of the most distinguished deputies

THE AMAZON, AND RIO MADEIRA.

BY THE REV. CHARLES YOUNG.

I HAD an opportunity last year of fulfilling a long cherished project. From childhood nothing in nature has had a greater attraction for me than trees, and a giant tree, such as that of which the bark exists in the Crystal Palace, has been the height of my ambition among the sights of nature. As far as I could discover, the largest specimens were to be found in California, but Humboldt's writings, and other works, led me to believe, that also between the Amazon and Orinoco were to be found trees which fifteen men with linked hands could hardly embrace. Moreover, I was anxious to kill two birds with one stone, and to see at the same time tropical vegetation, and the abundant flowers of a South American forest. I therefore made Brazil my goal rather than California. In the dearth of precise information, concerning the remote and untravelled parts to which I was going, I was obliged to trust largely to what I should be able to learn on arrival, as to the best point to make for, in order to find trees of transcendent height and girth.

As I was to travel alone, I was anxious to procure some letters of introduction; four or five came to my hands within a few hours of the vessel's starting, a great consolation, certainly, though I was determined to have gone, had I had no other letter of introduction but my passport. I may be allowed to mention gratefully Mr. Nicholson, who gave me a letter to Mr. Edward Ryder, an American merchant at Pernambuco; Mr. Singlehurst, who sent me a letter to Mr. Brocklehurst, his partner at Pará; Admiral Grenfell, who gave me letters to the captains of the ports of Pernambuco and

"Trees of Transcendent Height and Girth"*

46. YOUNG, Rev. Charles. *The Amazon and the Rio Madeira*. N.p.: ca. 1862. 8°, pebbled quarter calf, mild stains. Light browning. In good to very good condition. Inscription by the author to Sir Woodbine Parish, dated May 1862; the same hand, at the foot of the flyleaf, wrote "Extracted from Vacation Tourists 1861." 46 pp., (1 blank l.). \$800.00

First separate edition of a work originally published as pp. 121-66 of *Vacation Tourists and Notes of Travel in 1861* (London, 1862), edited by Francis Galton. The author went to Brazil because his dream since childhood was to "find trees of transcendent height and girth." He gives a lively and detailed account of the people he meets, as well as the flora and fauna.

* Not in Borba de Moraes (1983) or in Carvalho, *Biblioteca exotico-brasileira*. Not located in NUC, which lists *Vacation Tourists* at DLC only.
